Subject: Testimony on SB 928

Mar 16, 2015

The Energy and Technology Committee

To Committee,

As a result of reviewing information I received from the Sierra Club, I am writing to urge you to pass a strong SB 928. I agree with their message.

Connecticut needs more in-state clean energy to meet our renewable energy goals, to reduce greenhouse gas emissions, to prevent air pollution, and to power our economy by creating new jobs.

To avert the looming threat of runaway climate change, we must transition as quickly as possible to utilizing plentiful, clean energy sources like solar and wind. SB 928, An Act Concerning Shared Clean Energy Facilities, will establish a program to allow homeowners with shaded roofs, renters, condo dwellers, and business that lease space to participate as subscribers in a solar installation, or other shared clean energy facility, whether it's next door or across town. As a renter myself, I welcome the opportunity to participate in such a program.

More clean energy production in Connecticut will add good jobs to our economy, reduce energy costs, clean up our air, reduce greenhouse gas emissions, and have positive public health impacts in communities burdened with poor air quality.

Everyone should have access to locally produced clean energy. Please pass SB 928, and make sure the final language is strong and effective.

Sincerely,

Dr. Yulia Gurevich
